

HYDROSTATION

variable speed booster system

Hydrostation Variable Speed

New variable speed pumping unit for domestic water pressure boosting. Permanent magnet motor allowing for constant pressure while reducing noise and consumption. Controlled by Bluetooth for increased functionality.

Features:

- High-efficiency permanent magnet motor
- Inverter system for water pressurisation
- Integrated non-return valve
- Compact design and quiet operation (43dBA)
- Bluetooth connectivity
- Flow rate up to 95l/m
- Maximum total head up to 60m

Optional Extra:

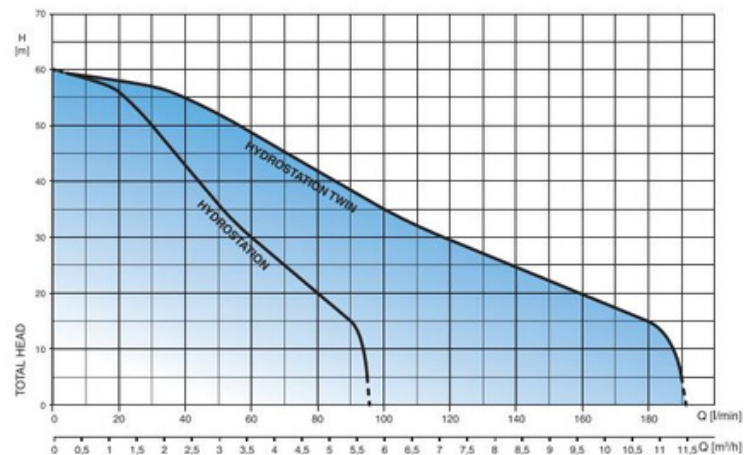

Pressure Vessel

Operating Conditions:

- Ambient Temperature: Max. +50°C
- Liquid Temperature: +5°C ~ +45°C
- System Pressure: Max. 10kg/cm²
- Max. Suction Depth: 6m

PERFORMANCE RANGE

Pump Model:

Pump Type	Power		Inlet	Outlet	Max. Current	Max. Flow	Max. Head
	kW	HP					
Hydrostation	0.8	1	1"	1"	4.6A	95l/m	60m
